Description

One of the most impressive computer systems ever was the vacuum tube based behemoth AN/FSQ-7, which was the heart of the "Semi Automatic Ground Environment". Machines of this type were children of the Cold War and had a tremendous effect not only on this episode in politics but also generated a vast amount of spin-offs which still shape our world.

One of the most impressive computer systems ever was the vacuum tube based behemoth AN/FSQ-7, which was the heart of the "Semi Automatic Ground. One of the most impressive computer systems ever was the vacuum tube based behemoth AN/FSQ-7, which was the heart of the "Semi. The AN/FSQ-7 Combat Direction Central, referred to as the Q7 for short, was a computerized command and control system for Cold War ground-controlled interception used in the USAF.
