

Thought Transference And Mental Telepathy

Telepathy is the way of transporting information from one person to another without the use of any of the known sensory channels or a physical interaction. It is the process of receiving thoughts or feelings from another person located at a distance with the use of extrasensory perception or ESP. Such mental telepathy communication includes thoughts, ideas, feelings, French "communication de pensees," "thought-transference," and "thought-reading. Telepathy (from the Greek tele meaning "distant" and pathos or -patheia meaning "feeling, perception, passion, affliction, experience") is the purported transmission of information from one person to another without using any known human sensory channels or physical interaction. Telepathy and mental communication: does it exist? Why? An older term still found in the literature is "thought transference", mostly of "thought impressions". Mental telepathy is defined as "Communication through means other than the senses, or thought transference." This is a rather dry way of putting it, but is an.
